WEDNESDAY AFTERNOON, OCTOBER 15.

Insanity and Crime. It has been questioned whether insanity is not always the concomitant of suicide. We are ined to think that it is. It is true that great self-possession and coolness are sometimes manifested by persons who have made up their "shuffle off this mortal coil;" but who does not know that the minds of monomanines are in some cases as calm, as unimpas-sioned, as phlegmatic as the most unclounded, undiseased intellects? The recent report of the State Lunatic Asylum at Utica embodies

propensity, which confirms the opinion that suicide is always the result of mental disease. The desire for self-destruction, it seems, prevails to a greater extent than would be supposed. For instance, of eight hundred and sixteen pa-tients in the New York Asylum during the past year, sixty-six were subjects of this form of hundred miles back of the republic of Liberia lunacy. It would appear, in addition, that the propensity rages more among females than males. Of the above sixty-six, forty-four were women. A further fact is made manifest by the report. It is, that the propensity frequently assumes an epidemical character. In the month of July, there were admitted into the institution no less than nineteen persons laboring under this description of insanity; and, during the same month, fourteen suicidal attempts were made by patients already in the Asylum. It would seem that the knowledge of others having destroyed themselves exercises a considerable influence in developing this propensity. A patient having made a successful attempt at sui-cide, and two others happening to learn it, they were overheard, soon after, devising a similar mode of death .- N. Y. Star.

There are equally good grounds for believing

that murder is always the result of insanity. country have decided a larger per-centage of deceased. the homicides than the above to have been preceded by diseased minds; and that the rest had probable. In fact, in our opinion, all crime proceeds from this cause: the judgment must first lose its balance, and the passions must yield obedience to a delusive infatuation. The man who forsakes the even tenor of a useful life turns his affections towards one who is false and dishonest; the man who, by slow degrees, creates an appetite for the draught that must destroy him; the man who cherishes enmity and revenge until his whole nature is absorbed in it, and he becomes the witless victim of its frenzy ;-all these are insane, and impelled to the commission of deeds from which a healthful mind would recoil. But are they, theremeans. Their insanity is crime—the insanity | not two hours! of all persons, excepting the few whose moral is calculated to destroy or impair our happiness. are the only purposes to be accomplished.

regimen, stern restraints, application to labor, heard of." humility and obedience, are all necessary, but not more so than the words of kind encouragement be lost to view.

The lash, the whipping post, the pillory, the rack, the torture, the gallows, and the public spectacle, can have no argument but that of vengeance to support them; and wherever the desire of vengeance exists in the human breast, when you see a person coming out of the elethere is one who merits and needs the restrainpenitence and reformation.

Crime is the result of Easanity, but ine mity is, in general, both discuse and crime!

THE STATE OF PENNSYLY', NIA .- We are very sorry to say that this good old Commonwealth has been complet ty knocked into fits! The North American, of yesterday, said: "Should Col. Bigler be elected-and no effort, however corrupt or desperate, will be neglected to secure his success—we candidly believe that the credit of this State will be again prostrated; that our commercial community and business men of all pursuits will be subjected to great distress; and that we shall return to those times of bankruptcy and repudiation which were brought about by the prodigality and corruptions of Locofocoism during their long career of perverted power heretofore."

Colonel Bigler is elected; and if the gloomy predictions of our friends of the North American shall prove true, we will hold Colonel Forney personally responsible; for he has been sinning with his eyes open-he has had the advantage of the North American's counsels all the way through !

DIVIDEND OF THE WASHINGTON BRANCH RAIL-ROAD .- The Baltimore Patriot states that the Baltimore and Ohio Railroad Company has declared a semi-annual dividend of four per cent. on and after the 16th instant.

We think that this might be increased by the reduction of their fare to a reasonable ratewhich reduction, for the good of all parties, the people of the two cities should demand. Three cents a mile, making the passage \$1.20, is abundant; and \$2.00 to come and go within forty-eight hours. The hotels, boarding houses and all other places of business in the two cities would profit by this reduction, and the convenience of the public would be greatly promoted.

It is stated that Charles W. Fenton, late United States consul to Cowes, has been appointed a clerk in the Third Auditor's office, Mr. Fenton will perform his duty well in any at last been remembered.

California Land Commission. GEORGE W. COOLEY, esq., a member of the Boston bar, has been appointed by the President of the United States, Attorney to the Board of California Land Commissioners.

LIBERIA.-The Rev. R. R. Gurley, who last year visited Liberia, in describing this beautiful country in the Christian Statesman, says: As far as Europeans or Americans have penetrated, which is only to the extent of some two or three hundred miles we believe, they give the most glowing pictures of its beauty and fertility, and the salubrity of its atmosphere. Most happily for a tropical region, the mountains of hills approach to within a short distance of the sea-shore, but have not the lofty and rugged some information in relation to the suicidal character of those of South America. They abound with limpid streams, furnishing every facility for manufacturing, and are covered with stately forests. It is not improbable that this may be the character of the country for many hundred miles back of the republic of Liberia will form one of the most magnificent abodes of man on earth. Even the portion already known is of sufficient extent to form an empire as large as France; and there is no reason why it may not, in two or three centuries, become as enlightened and populous, as it will unquestionably be better governed.

THE LATE REV. LEVI R. REESE .- The Alexandria Gazetle of yesterday says that a very eloquent and affecting funeral discourse on the death of the late Rev. Levi R. Reese was preached in the Methodist Protestant church. (by invitation of the congregation,) by the Rev. L. W. Bates, of Baltimore, on Sunday last. A large and attentive audience listened with solemnity to the discourse, and united with the If we err not in our estimate, the juries of this preacher in his tribute to the memory of the

RECEPTION OF KOSSUTH .- The Secretary of the Navy has furnished Alderman Franklin, their origin in the same cause is altogether chairman of the committee of arrangements, with an order directed to Captain Long, of the steam frigate Mississippi, requiring him to re main two days at quarantine on his arrival here, so as to afford ample time for the arrange ment of the proposed ceremonies of reception The general committee of Democratic for the deceptive pursuits of a gambier's call-ing; the man who wrongs a virtuous wife, and part in the procession.—N. Y. Com. Adv.

Gracious powers! was ever such an absurdity heard of before? Keep Kossuth two days in quarantine, after a long exile from friends and country, and a tedious sea-voyage, and all because the fire-crackers and sky-rockets are not prepared! We trust the citizens-of New York will not allow it, but that every steamboat, longboat, and barge in the harbor will head straightway for the steamer, and bear the fore, to be exempted from punishment for the patriot, the hero, and republican in triumph to violation of the laws of their country? By no the battery! Two days in quarantine! No,

THE HAVANA CONSULATE .- This is said to be one of the most profitable foreign appointments in the gift of the Government. It is estimated to be worth from \$15,000 to \$20,000 a year. Consul Trist is said to have made even more than \$20,000 per annum out of it.

ITALIAN OPERA .- Max Maretzek and his troupe arrived in Baltimore last night, and will give their first performance to-night.

MR. WEBSTER FOR THE PRESIDENCY .- The Boston papers say that measures are about to be immediately taken for the assembling of a on the Washington branch of their road, payable convention at Fancuil Hall, for the nomination of Mr. Webster.

> Kossurn will probably arrive at New York during the present week, and everybody should subscribe to the American Telegraph.

THE BANK OF THE OLD DOMINION, at Alexandria, has commenced its issues. The President and Directors are said to be capable, business, prudent men, and the cashier and other officers accommodating and efficient.

CHARLESTON NAVY-YARD.—The Boston papers say that business at this yard is brisk. The U.S. frigate Cumberland is undergoing repairs; the sloop-of-war Portsmouth is being fitted, with despatch, for the Pacific; the offi cers will probably be ordered this week. A new steamer is to be built on the keel of the old station, and we are pleased to learn that he has Princeton, to use the same machinery, and to have the same name.

A Black Swan!

Buffalo, Oct. 14 .- A colored woman named Eliza Green, from Richmond, Va., is creating quite a sensation in musical circles here, and is to give a concert shortly. She is said to have quite a powerful and wonderful voice, and is called "The Black Swan."

Jenny Lind. Jenny Lind and suite arrived here to-day and were received with great enthusiasm. The tickets for her first Concert to-morrow night are going off rapidly and at high prices.

Law in Syracuse! SYRACUSE, October 14 .- In obedience to orders issued by the Federal Government, war-rants have been gotten out against some of the most prominent citizens of this place, for alleged participation in the recent rescue of a

fugitive slave. A Man Shot!

PHILADELPHIA, October 14 .- A thief who was detected on the Truck farm, last night, was shot in the neck and instantly killed. The man who shot him immediately surrendered himself. The election excitement to-day has put a check upon business.

Coasting Steamers. New York, October 14, 12 m .- The steamer Alabama arrived here this morning from Savannah, and the steamer Marion, from Charleston. They bring one hundred and six thousand dollars in specie.

Affairs in Mexico. - The Revolution NEW OBLEANS, October 13 .- The steamship Yacht, which has just arrived from the Brazos, which she left on the 9th instant, brings later intelligence from Northern Mexico.

BETTER THAN GOLD!

PORTSMOUTH, July 9, 1851.

MR. J. E. BOUSH—Dear Sir: I feel it a duty to make known the benefit I have derived from Dr. Hampton's VEGETABLE TINCTURE. For a number of years I known the benefit I have derived from Dr. Hampton's VEGETABLE TINCTURE. For a number of years I suffered from disease, but to a greater degree for the last three years. One of the forms of my disease was dyspersia. From this dreadful malady I suffered to such an extent that life was really a burden. The attack of it on me was different to that on any other person of whom I have hearl; at times it was like the palpitation of the heart; there was a constant thumping and beating without intermission about the region of my heart, chest, and stomach; some of the attacks would last for weeks; my stomach was much distended, with constant pain, great weakness, and constitution of the bowels. I could not eat the most simple food without pain. I also suffered greatly from disease of the kidneys, with constant pain in the back, that I could walk only with great difficulty. I tried nearly all of the most celebrated patent medicines of the day, but found no relief. I had also the best medical attendance. One of my physicians frankly told me it was of no use for me to be paying him for advice, as he could do me no good. I gave up almost in despair, and thought my disease certainly incurable.

At this juncture I heard of Hampton's Vegetable Tincture. I refused to give it a trial, although persuaded by my friends, until my son purchased a few bottles, and requested me to try it; after taking it a few times, it had a most happy effect on me; my confidence increased, and after taking three bottles, my dyspepsia, or dicase of the stomach, was nearly if not entirely cured. I now feel myself a new man, and in better health than for years. I am certain the cure in my case was made by this Hampton's Vegetable Tincture alone. Since my cure I have

myself a new man, and in better health than for years. I am certain the cure in my case was made by this Hampton's Vegetable Tincture alone. Since my cure I have recommended the tincture to a number of my friends, who have also been relieved by it. Some of the cures have been as rapid and equally wonderful as mine.

I present my respects to Messrs. Mortimer & Mowbray, the proprietors of this valuable medicine, and say to them its value is above price; and from my cure, and what I have seen of its effects on others, I shall ever feel it my duty to recommend it to the suffering. I have no doubt many valuable lives will be prolonged by its ure. I hope the afflicted will cast aside their prejudices and give it a trial. Yours most respectfully,

(Signed)

JOHN LUKE.

The above is extracted from a letter from a gentleman sixty years of age, and of high character. He says: "I have given but a faint idea of my sufferings; I feel inadequate to the task." We also have received, in the last equate to the task." We also have received, in the last few days, letters from two of our most worthy and wellfew days, letters from two of our most worthy and well-known citizens, giving two remarkable cures of spinal disease. But yesterday one of the oldest merchants re-ported that he was cured of neuralgia of the head, of years standing, and so bad that his teeth fell out from its effects. Call and see letters. Was there ever so many cures, wonderful cures, made by any other medicine. All we ask of the afflicted is that they try Hampton's Vegetable Tincture, the great purifier of the blood and Vegetable Tincture, the great purifier of the blood and cure for all chronic diseases, as dyspepsia, rheumatism, scrofula, and all complaints of the stomach, bowels, &c.
